**Subject:** BMOP DWP - Revised Air Dispersion Modeling Protocol

Ashley,

Please find attached an Air Dispersion Modeling Protocol to address the requested revisions to the Blue Marlin Offshore Port, LLC Prevention of Significant Deterioration (PSD) Air Permit Application to incorporate the EPA's noted applicability to the Maximum Achievable Control Technology (MACT) requirement of 40 CFR 63, Subpart Y.

We would like to meet with you, virtually, to discuss the protocol and provide an update of the revised application development. Could you please provide your availability this week? We will then set up a calendar invite and virtual meeting link.

Thank you!

.....
